

Spark Imaginative Learning Through Engaging, Hands-On Science

Birds of a Feather ©

Learn about our flying friends - birds! Discover how the feathers of these colorful animals keep many warm, help others float, and even repel water!

Can You Sense It? ©

Learn about our sense of touch, hearing, and taste. Find out why food doesn't taste so yummy when you have a cold.

Copy Cat ©

Reveal nature's sneakiest copycats! Discover how animals mimic other species. Have FUN and learn about the tricks of the animal world.

EARTHscapades ©

Discover our amazing planet and all the natural events that shape our planet. Take a hands-on look at tornadoes, volcanoes, & more!

Fantastic Static ©

Get charged as we have FUN with static electricity. Students will look at the amazing effects of static and how it attracts!

FizzFun ©

Have fun as we learn about chemicals and the way they behave. Inflate a balloon, create carbon dioxide gas, and make soda fizz!

Invisible Forces ©

Uncover some of nature's invisible forces! Experiment to prove that UV rays, electricity, and magnetism exist even though we cannot see them.

It's a Fine Time ©

It's a fine time to learn all about time in this FUN program. Discover how we can tell time by the sun. Make a sundial and your own timer to keep!

Leaf Me Alone ©

Discover how cool plants really are. Students will get to separate chlorophyll & build their own greenhouses to keep!

Magnificent Mountains ©

Discover the vegetative zones, and have FUN as we make an avalanche! Make your very own mountain to keep.

My Friend Ben ©

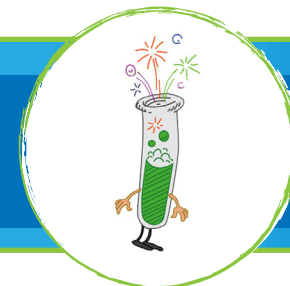

Learn about the amazing discoveries of Benjamin Franklin! Create circuits, concoct your own ink, and write like Ben with a feather!

My Planet, My Home ©

Learn about our incredible planet. Discover how to take care of our planet, explore recycling, and make a pollen catcher to keep!

Science Made Fun!

"The scientist was very friendly and helpful to our students and staff. She was very informative to the kids. The students were engaged in the activity!"

HANDS-ON FUN!

Preschool Workshops

High Touch High Tech can help your preschool stand out from the competition. We continue to nurture budding young minds with our amazing programs specifically designed for preschool age children. Our programs are totally hands-on and totally participatory for each child.

High Touch High Tech scientists will be at your preschool for 90 minutes. Scientists will engage each group of children for 30 minutes of non-stop, hands-on, FUN learning.

The cost of this science and nature experience is \$200.00 per program. All materials are included in this educational and fun experience. Please note that a \$10.00 travel fee may apply.

Book your reservation by calling or visiting us online at ScienceMadeFunWNC.net.
