Science Made Fun!

September **Back to School Specials**

This is a great way to kick off the year with some hands-on exploration or to start any science unit. Book three 75-minute Elementary workshops to occur in a day.

Sept 5 -- 8 3 workshops for \$450

Sept 11 – 15 3 workshops for \$500

Sept 18 – 22 3 workshops for \$550

One hour September special!

Book 4 Jr. Architects in single day (Gr. K–4) for \$575! - Become an architect discover some famous building and the forces that help them stand. You will get a chance to build a structure and see if it can withstand an EARTHQUAKE!!

October **Frankenstein's Freaky Laboratory© (K-4) (1hr)** Kids will “ooh” and “ahh” as they explore the world of spiders, create gooey green slime and make Frankenstein's favourite treat to eat!

Spooky Science© (2-6) (1hr) Join us on a ghost hunt as we search for ghost poop and eggs... we'll even teach you how to get rid of them! We'll make chemical worms and screaming cups that will keep your kids screaming for MORE fun science!!

November **Germ's Make Me Sick© (K-4) (1hr)** Learn about bacteria and viruses and how they can make us sick. Discover how easily germs can be passed around and how you can keep them off you! Children will experiment and see how important it is to wash their hands properly.

December **Winter Wonderland© (K-4)(1hr)** It's time to cool things down as we explore below freezing temperatures. You'll experiment and see if liquids change in size when they change temperature. Explore the properties of ice and snow as you get to make and take some snow home!

*Book 4 of the same one hour workshop in a day for only \$625!
