Science Experiences That Come To You

Brochure Blurbs Afterschool Enrichment REV 8-03-11

Program Name	Brochure Blurb
Science Separators	Learn all about the ways scientists separate things. Discover chromatography and have FUN as we get hands-on with a kidney, the body's ultimate separator!
Wacky Water	Have FUN as we catch a cloud, make a lava lamp, stab a pencil through a bag of water and much more!
Living Laboratory	Discover osmosis and make a carrot cry!
Our Home	Roll up your sleeves as we make recycled paper! Build an ocean biome and more!
What else is out there?	Learn all about asteroids as we build our very own to keep! Have a real IMPACT, as we become crater makers!
Archeology I	Discover what real archeologists do! Learn how to prep an archeological dig site. Have fun as we explore the technique of shape sifting!
Archeology II	Grab all your tools; we are going on our archeological dig! Make your own edible pyramid and more!
Cellular Science	Put on your gloves and touch real cow hearts! Discover your pulse; calculate your blood volume and more!
Shelter Science I	Discover all the amazing shelters animals use. Build your very own ant hill.
Shelter Science II	Catch the buzz, as we build our very own beehive, make a candle out of beeswax, and enjoy our honey taste test!
Exploring Birds	Explore the amazing world of birds. Find out why they are truly our feathered friends. Make a penguin, build a beak, and make a nest.
Topography	Discover the science of topography. Learn why the earth wobbles, make a sand dune, and erupt your own personal volcano!
Magnets	Get all the "attractive" facts as we have fun with magnets. Make an electromagnet and more!
Soapy Science	Get clean and mean with our soapy science.

High Touch High Tech[®]

Science Experiences That Come To You

	Discover how soap works; make “sailor soap”, finger paint, and more!
