

Frequently Asked Questions

Q: Can programs be adapted for different grade levels?

A: Yes! Although programs may be listed on our brochure for a specific grade, they can be easily adapted for all grades.

Q: Can teachers step out of the classroom while the Scientist is facilitating the program?

A: Teachers are requested to remain in the classroom throughout the program. We encourage teachers to participate and rely on their feedback to assist in our efforts to continuously improve upon our FUN and exciting hands on science experiences.

Q: How should I set up my classroom in preparation for the Scientist?

A: Our Scientist and your students will need either desk tops or table tops at which to conduct their hands-on science experiments. Please put the classroom desk into 5 group or pods. We also ask that you have a Chalkboard or Dry Erase board available for use by our Scientist. Note that some programs may require access to water; therefore, access to a sink and tap would also be helpful.

Q: Are the supplies included with the program?

A: All supplies are provided by High Touch High Tech. Our Scientist will bring enough supplies for each student to enjoy a hands-on experience. Please have extra paper towels and/or wipes for cleaning up spills.

Q: How many Scientists will facilitate each program?

A: One Scientist will be assigned to each classroom/program.

Q: What is the length of each program?

A: Programs run for 60 -90-minutes and are action packed with FUN hands-on science experiences for each and every student in your class.

Q: When will the Scientist arrive?

A: Our Scientists require only 5-10 minutes to set up for your program; therefore, you should expect them to arrive approximately 10 minutes prior to the start of your program.

Q: How will I be able to identify the Scientist?

A: Our Scientists will be easy to identify in their white, High Touch High Tech lab coats.

Q: Which standards are met by each program?

A: Click on the link below to view a copy of our state standards menu. All programs and their corresponding state standards are outlined on the attached document.

Q: How do I make a reservation for my classroom?

A: Reservations can be made via phone or on-line. You can find our contact information by clicking on the "Contact Us" page of our website. You may also click on our Reservation Form page and complete the form on-line.

Q: Is a deposit required when I make my reservation?

A: Yes. We require a \$50.00 deposit along with a signed copy of your confirmation letter in order to hold your requested date. A 10% deposit is required for whole school and multiple bookings.

Q: Can I pay for a HTHT in-school field trip with grant dollars that have been awarded to my school?

A: Yes. Many schools pay for their High Touch High Tech programs with grant dollars received via the 21st Century Grant, Eisenhower Grant and several Local & State Grants.
