Prechool Workshops

High Touch High Tech can help your preschool stand out from the competition. We continue to nurture budding young minds with our amazing programs magnificently designed for preschool age children. Our programs are totally hands-on and totally participatory for each child.

High Touch High Tech scientists will be at your preschool for 90 minutes. Scientists will engage each group of children for 30 minutes of non-stop, hands-on, FUN learning. Take home project and certificates for each child included in this price.

We come to your school every month from August to May or you select the programs you want. The cost is \$200 per program. Book our full curriculum of 10 programs and get a discount of \$10 per program. For complete list of our preschool programs, please visit our website.

*Flat rate is for up to 60 students,per child rate will apply for additional students

Science Experiences That Come To You
281-448-9919

www.ScienceMadeFunHOU.net

Nurturing young minds and fueling budding imaginations in Science

Programming Information:

AUGUST - Scientifically Science ©

Learn all about what a real scientist does. Use scientific tools! Observe and predict what happens when you mix chemicals together. Take home a real magnifying glass.

SEPTEMBER -Dino Daze ©

Students will examine real fossils, learn where fossils came from and why they are so important to scientists. Each paleontologist makes their own fossil to keep!

OCTOBER - Spooky Spiders ©

Get caught in the vast web of information about spiders. Learn the difference about a spider and an insect. Take a close look at spiders. Spin your own web and even build a spider you can eat!

NOVEMBER- Germs Make Me Sick ©

Learn about those nasty little germs that make us sick. Find out how easily germs can be passed around and how you can keep germs off you!

DECEMBER - Reaction, Reaction ©

Discover all about chemical reactions as we make pennies sparkle and make our own sparkling star to keep!

JANUARY - Moovin' and Groovin' ©

Have fun as we discover motion. Make water run down a string. Learn about the science of aerodynamics and catch air as we make a flyer keep.

FEBRUARY - My Planet, My Home ©

Learn about our incredible planet. Discover how to take care of our planet, explore recycling, and make a pollen catcher to keep!

MARCH - Follow That Planet ©

You'll be glowing as we discover space. Journey through the stars as we build a constellation. Count down to the rocket launch!

APRIL - ExSEEDingly Cool ©

Discover the amazing world of plants. Have fun as we check out all types of amazing seeds. Make seeds travel. Find out what seeds need, and take some home to grow.

MAY - Out Of Sight Light ©

Discover what light is. Have fun as we explore shadows. Make a magnifier to keep!

Science Made Fun!

"High Touch High Tech creates a participatory environment geared for each child's appropriate age level. The program allows for a scientific exploration of the world around us."
