

WE COME TO YOU!

Sizzlin' Science Inc. offers Afterschool science programs that tap into children's natural curiosity to help make learning FUN!

Our supplies and equipment encourage hands-on participation for all children from Kindergarten through 5th grade.

Our programs last for 30-minutes. We can accommodate as many 30-minute programs as necessary to meet the needs of your school. All programs provide take home materials.

* \$225.00 set fee for up to 50 children;
\$4.50 for each additional student.

* Hour-long enrichments available for groups of 20 or less at a set fee of \$150.00.

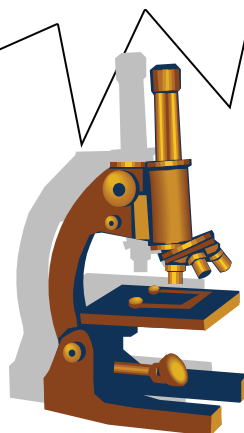

* Large Afterschool? No problem...we'll send an extra scientist!

* Book Early Release days now! Space is limited.

*Turn your Afterschool Program
into a Sizzlin' Science Laboratory
and turn your students on to
SCIENCE!*

Serving All South Florida Afterschool Programs

When school is out, High Touch High Tech science programs are in!

We have many themes for you to choose from. Here are just a few:

Mission Control©

Learn about our galaxy: The Milky Way. We'll be "glowing" as we discover outer space. Journey through the Cosmos as we launch Nerf rockets and make glow-in-the-dark Space Mud to keep.

Volcanoes©

Become a Volcanologist and discover the Ring of Fire. Explore the awesome world of volcanoes as we move magma. Get ready for explosive FUN and take home various volcanic rocks.

Soak It Up©

Become a FUN science soaker! Discover all of the neat ways that we can absorb liquids. Explore the world of chromatography, capillary action and much more! Take home super absorbing crystals.

Edible Science©

Discover the amazing science of our senses. We will learn how our nose helps our tongue taste things and make our own yummy "gummy drop" candy to eat.

Jurassic JR.©

Step back in time to the age of dinosaurs. Become a paleontologist as we explore real fossils. Make your very own fossil and take home your favorite dinosaur.

Arctic Antics©

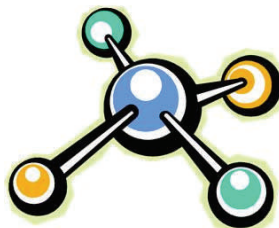

Are you into Inuits like we are? Go north of the Arctic Circle as we learn how to keep warm. We'll even get to play in the snow & build an arctic habitat!

Lab 101©

Join us on an adventure through all kinds of cool and crazy chemical reactions. Mix acids and bases and watch the explosive FUN! Make a polymer to keep!

Power of Light©

Pull out your psychedelic glasses to meet ROY G. BIV. Learn all the groovy news about light and how it travels. We'll be ultraviolet detectives and make our own UV bead detector to keep!

**Have a special theme?
We have a program to meet your needs!**

Old Favorites Still Available:
Primarily Plants©
Bugs, Bugs, Bugs©
Cool Coastal Science©
Bubble Blast©

Going in Circles©

Learn about the forces that make things move. Let's play with gravity birds, helicopters and tops. We'll even take home our very own prism spinner as we learn about pushes and pulls.

Rock & Roll©

Step back in time to the days of the old prospectors as we search for real gems. Become a geologist as we classify our stones. Take home an assortment of real beauties, maybe even gold!
