# **Science Made Fun!**

## ***What people are saying about our Workshops...***

### **Students**

“This was so fun!”

Kindergarten Class at Our Lady of Sorrow about Chemfun

“Fun. Awesome! Triple Fun”

Grade 1 students at Chantrell Creek about Newton in a Nutshell

“I didn’t know science could be so fun.”

Grade 7 student

### **Teachers**

“Students had many hands-on experiments to take part in to explore plants and seeds.

Anaconda Angie captivated students with her kid-friendly approach to teach children about plants and seeds. Lots of observations were made to discover science topics.”

Grade 2/3 Teacher- Mountain Meadows

“It was a great workshop! The boys and girls really enjoyed being palaeontologist’s today.

They especially liked the hands on activities! (and take home stuff!)”

Grade ½ Teacher- Miller Park

“Well organized, great information, excellent classroom management, hands-on, students were engaged. A great culminating activity for our space unit!”

Grade 3 Teacher- Miller Park

“Excellent Selection of activities to develop the students understanding of sound. The students love it! The wind instruments were definitely a hit!”

Grade ¾ Teacher - Panorama Hts

“Students were excited about learning. They enjoyed all the experiments. Presenter was organized, enthusiastic and had excellent classroom control.”

Grade 4 Teacher
