Science Made Fun!

Jr. Science for your preschoolers!

Bubble Blast ©

Have fun doing bubble tricks and playing bubble games. Learn the basics of bubble making and bubble blowing. Create cool bubbles and take home your own bubble blower.

Colour Mania ©

Join us for this colourful workshop as you throw on some goggles and create your own colours. Watch colours separate and even grow.

Germs Make Me Sick ©

Learn about bacteria and viruses. Find out how they can make us sick. Discover how easily germs can be passed around and how you can keep them off of you!

Preschool Paleontologists ©

Become a paleontologist as we explore different types of dinosaurs through our dinosaur skulls, teeth and more. Experiment with edible amber and go on an excavation!

Me and My Magnet ©

Make magnets float, move cars, and much more. Discover all the cool properties of magnetism. Learn all the “attractive” facts!

Leaf Me Alone ©

Discover how cool plants are. Build your own greenhouse to keep. Make chlorophyll separate and more!

Rock n Roll ©

Learn about the Earth’s layers. Discover what makes a volcano erupt. Pan for real gems like the old prospectors did, and keep what you find.

Frankensteins Lab © (*Halloween special!*)

“Kids will “ooh” and “ahh” as they learn about hissing cockroaches, explore the world of spiders and make Frankenstein’s favourite treat to eat.”

Winter Wonderland ©

It’s time to cool things down as we explore below freezing temperatures. Explore the properties of ice and snow as you get to make and take some snow home!

Santa's Lab © (*Christmas special!*)

Help Santa's elf make some toys and treats in the workshop. Keep everything you make!

Science Experiences That Come To You™
