

## Science for preschool? **YES!!!**

*Prepare your students for STEM success by planting the seeds early! Preschoolers are naturally curious and willing to try to new things. Exposing them to early science experiences fosters this natural curiosity.*

Enhance your current curriculum with **High Touch High Tech's** science experiences that come to **YOU!** Since **1994**, **High Touch High Tech** has worked to increase the scientific and technologic literacy among Metro Atlanta's children through HANDS-ON science fun.

**High Touch High Tech** provides a **degreed professional instructor** and all materials for each **HANDS-ON** program that is based on **GELDS** standards. Programs are approximately 45-60 minutes. We conduct multiple programs in one day in order to see all of your students!

*Each program is 'kid tested & approved' for learning FUN!*

## Science Experiences for Early Learners

We  
come  
to  
you!

Now meeting  
**GELDS**  
standards!

The nation's leading science  
experience that comes to YOU!  
*NOW SERVING PRE-K!*

### MOVIN' & GROOVIN'

Gravity, friction, and motion are the Ideas behind our exploration. Ramps and runs are just part of the fun as the pint-sized physicists engineer their own learning!

*CD-SC4.3a, CD-SC4.4a*

### OUTSTANDING OBSERVERS

Little learners learn to observe like scientists by using different lenses, taste tests, and smelling bees & more teach young learners to make the most of their senses!

*CD-SC1.3a, CD-SC1.4a, CD-SC1.3b, CD-SC1.4b, CD-SC1.3c, CD-SC1.4c*

### DAYDREAMERS & NIGHT OWLS

Get the spin on Earth's movements that create day and night. Help sort out day and night activities. Get an idea of what keeps nocturnal animals up at night!

*CD-SC2.3c, CD-SC2.4c*

### RAIN, RAIN, GO AWAY

Your mini meteorologists will have a blast touching clouds, creating tornadoes and DANCING the water cycle. Mimicking the movement of the sun, learning about seasons will be part of our fun.

*CD-SC2.3d, CD-SC2.4d, CD-SC1.3b, CD-SC1.4b*

### JUNIOR GEOLOGIST

Smooth or rough? Sink or float? These questions and more will be answered as the Jr. Geologists collect rocks and fossils (to take home!), observe fossils, make rubbings, and test a variety of rocks for various properties.

*CD-SC2.3b, CD-SC2.4b CD-SC1.3b, CD-SC1.4b*

### CHEMICAL CURIOSITIES

Measuring mass with real balances and experimenting with the gases in the room will be part of their investigations. Your chemists will test matter for the properties of density and magnetism. Exploring the solvent properties of water, they'll bring home their results.

*CD-SC4.3c, CD-SC4.4cm, CD-SC1.3b CD-SC1.4b*

# BOOK TODAY!

### BUBBLEFEST

Girls & boys become BUBBLE-OLOGISTS as they build bubble wands and make & test an hypothesis. Chemical reactions will cause enthusiasm for science will be BUBBLING over!

### IT'S ALIVE!

Moms & babies, Seeds & plants, Classifying ... your itty bitty biologists will learn all about living things. Real live bugs – TOUCH IF YOU DARE! – will make a visit! Watching their personal plant grow will be an experiment to observe for days to come.

*CD-SC3.3a, CD-SC3.4a*

### I LIKE TO MOVE IT, MOVE IT!

Pushes and pulls ... SPEED UP ... Slooow down ... All ideas that will move our learning! Making (& taking) their own silly putty, will give your tiny scientists a chance to explain what they have learned about how speed can affect matter!

*CD-SC4.3b, CD-SC4.4b*

### WATER WONDERS

Feel a cloud and see a rainbow! Comparing conductors, floating carrots, and racing water droplets round out our water fun. Scientists take home their 'racetrack' too!

*CD-SC2.3a, CD-SC2.4a, CD-SC1.3b, CD-SC1.4b*

### MIGHTY MACHINES

Constructing marble runs, building highways, connecting gears ... everything needed to ignite the inner engineer spark inside your kids!

*CD-SC4.3d, CD-SC4.4d*

### GOING GREEN

Learning early to save our planet, may actually SAVE OUR PLANET. Recycling and pollution will be explored. Building a bird feeder and planting their own green-space will inspire them to continue to GO GREEN!

*CD-SC5.3a, CD-SC5.4a*

**hightouch hightech**  
**Science Made Fun!**

## Program Info & Pricing

- Each center-based program is led by a **degreed professional instructor** and is **HANDS-ON FUN** for every child participating!
- Programs last from 45-60 minutes and are based on **GELDS** science standards.
- Cost is \$8.75 per participant, with an additional \$10.00 per day supply surcharge.
- Daily minimum of 60 applies. If there are less than 60 total paid participants, a daily minimum fee of \$525.00 (+\$10 surcharge) applies.
- August/September bookings will enjoy a discount of \$.50 per student!
- **Teachers and chaperones participate free of charge, and must be present at all times.**
