

Make Your School's Excellence Stand Out with Science Made FUN!!

Sept - My Planet My Home©

Learn about our incredible planet. Discover how to take care of our planet, explore recycling, and make a pollen catcher to keep!

Oct - Spooky Spiders©

Get caught in the vast web of information about spiders. Learn the difference between a spider and an insect. Take a close look at spiders and more!

Nov - Cool Coastal Science©

Make waves, explore sand, investigate beach creatures, make your own shell imprints and more.

Dec - Fantastic Static©

Get charged as we have FUN with static electricity!

Jan - Fossil Fun©

Step back in time to the age of the dinosaurs. Become a paleontologist as we explore real fossils and make our very own fossil to keep.

Feb - Baby Animal Games©

Find out all about animals as we use bean bag babies to discover what makes each animal so special. Learn about animal protection, coverings and more!

March - Wet & Wild Water©

Is water really sticky? Discover all the mysteries about water and MORE as we get wet and wild with water.

Apr - Scientifically Science©

Learn all about what a real scientist does. Observe and predict what happens when you mix chemicals together. Take home a real magnifying glass!

May - No Bones About It©

Discover how our bones & bodies work

June - Give Us a Sign©

Journey through the footsteps of animals. Have fun as we discover the unique tracks of different animals, search for the signs they have left behind.

July- My Friend Ben©

Learn about the amazing discoveries of Benjamin Franklin! Create colorful circuits; concoct your own ink and write like Ben with a feather!

Aug- Magnet Makers©

Discover all the cool properties of magnetism. Learn all the "attractive" facts.

Science Made Fun!

High Touch High Tech of Northern New Jersey is pleased to announce our operation is under new management. Our Regional Programming Director, Tommy "Tsunami" Pisciotta, brings years of experience in geology and environmental engineering.

"Very age-appropriate learning. Lots of hands-on experiments. The students were very enthusiastic about the topics. One said 'So much fun! When I grow up I want to be a scientist!' "

Jennifer Oversmith
The Magic Attic Preschool

WE COME TO YOU!

Preschool Sizzlin' Science

High Touch High Tech Sizzlin' Science Programs are totally hands-on and totally participatory for each child. All workshops are designed for children Pre K-3 through Pre K-5. Our workshops last for 30 minutes. High Touch High Tech Scientists are excited to serve as many 30-minute sessions (15-20 students per session) as necessary to meet the needs of your school. Our Instructors will engage each group in non-stop, hands-on, FUN learning! Several programs include take-home materials.

The cost of our Preschool Programs is \$5.00/child with a minimum of 50 per day. Additional classrooms will be pro-rated. Please note that a travel fee will apply. All materials are included in these supply-intensive, educational experiences, each of which are designed for Science Made FUN!

Reserve all nine months or your choice of individual workshops!
