**Science Made Fun!**

High Touch High Tech has  
partnered with Joey's  
Outback of Wellington to  
bring you our FABULOUS  
hands-on science  
programs at a FUN kids  
Bounce House facility!

High Touch High Tech is bringing Hands-On Science to  
Joey's Outback in Wellington for:

## **NEW...Homeschool Programs**

@ Joey's Outback- 10670 W. Forest Hill Blvd. Wellington, FL 33414

Hands-on Science FUN! Lots of COOL take-homes! Supply intensive! Children will become Real Scientists as we safely discover the world around us and learn to problem solve and conduct FUN experiments! For students 4-12 years old.

### **NEW....Weekly, Hands-On Science Programs designed for Home School students**

**When:** Thursdays when public schools are open (first class is January 18, 2018)

**Times:** 1:00-2:15

**Pricing:** \$15.00/class-(cash or check only) or \$50.00/4 classes (includes admission to Joey's Bounce house)

- ◆ Please call to let us know you are coming \*\*we reserve the right to cancel a class due to low enrollment
- ◆ Walk-ins are welcome
- ◆ Appropriate for ages 4 years and up
- ◆ 15 minutes of "Lab Exploration"; 1 hour of science; lots of "cool" take-homes
- ◆ Enjoy Joey's Bounce House after science class (4-11 years old)
- ◆ We follow the Next Generation Science Standards
- ◆ We cater to unique learning styles

### **January**

**18th. Scientific Method-** Learn how scientist's problem solve. Engage in the "Fruit Loop" challenge and make a yummy necklace with the results to eat!

**25th. Light Fever®** - Explore ROY G. BIV. Learn about refraction, reflection, light energy & heat energy. Make an ultraviolet detecting keychain to keep.

### **February**

**1st. Rock and Roll®** - Pan for real gems that we can keep. Study their special qualities as we learn to classify them.

**8th. Adaptation Station®** - Explore the world of mammals. Discover animal adaptation as we explore mammals that live in extreme climates. Grow "snow" and make a polar habitat to keep!

**15th. Earthworks®** - Explore recycling and the 3-R's. Have a hands-on look at one of nature's most awesome decomposer. Make your own recycled paper.

**22nd. Magnet Makers®** - - Learn about attract, repel, magnetic fields, electro magnets and more. Make a magnet to keep.

### **March**

**1st. Measurement-** Use a variety of measurement tools such as balances and rulers to understand some basics of measurement and take home a cool ruler/bookmark!

**8th. Primarily Plants®** - Explore seeds, dissect a seed, discover photosynthesis and make your own Biome to keep.

**15th. Forensic Fun®** - Let's study our genetic information and build an edible model of DNA to observe the amazing Double Helix. We will study our fingerprints and take home a magnifier.
