**Preschool Programs
We Come to You!**

High Touch High Tech offers Science Programs that tap into children's natural curiosity to help make learning FUN! We continue to nurture budding young minds with our amazing hands on science programs, specifically designed for preschoolers ages 2-5 years old. Exciting and engaging programs for special needs children are also available.

Our scientists will engage the children in hands-on FUN science experiments. Program length will be 20-30 minutes per class, depending on age.

We can come to your school every month from September to May and follow our monthly schedule or you may select from a wide variety of programs we offer. A complete list of our programs is available on our website.

Every program includes a Science Certificate/Journal and most have a cool "take home" for your students 3 years old and up.

Program fees start at \$225.00 for 3/30 minute classes

Travel Fee: \$40.00 to Belle Glade, Miami-Dade & Martin Counties.

Proudly providing Hands-On Science Programs to children for the past 22 years!

AUGUST – Magnifying Madness

Learn all about what a real scientist does. Use a magnifying tool to observe insects, spiders, ocean life and real treasures. Take home your very own magnifying glass.

SEPTEMBER – Let's Make Sense

Discover the amazing science of our senses. We will touch heat sensitive color-changing pads, use tuning forks to explore the science of sound and vibrations and take home our own color-changing paper!

OCTOBER - Spooky Spiders

Let's "creepy crawl" together and explore the spooky world of our 8-legged friends. Learn why these incredible creatures are so important. We'll be making gooey "Spider Slime" to keep.

NOVEMBER – Primarily Plants

Discover the amazing world of plants. Have FUN as we check out all types of amazing seeds. Explore the baby plant that hides in every seed. Make your own greenhouse to keep.

DECEMBER – Me & My Magnet

Discover how much FUN a magnet can be. Uncover all the attractive facts as we go on a "fishing" expedition. Take home your very own magnet.

JANUARY – Arctic Antics

- Are you into Intuits like we are? Go north of the Arctic Circle as we learn how Polar Animals keep warm. We'll even get to play in the snow and make a Polar Bear Habitat to keep!

FEBRUARY – Earthscapades

Learn about our amazing planet. Observe REAL treasures that come from within. Have a BLAST as we erupt volcanoes and find out what makes our planet "tick"!

MARCH – Bubble Blast

Discover rainbows and ROY G. BIV. Experience the power of water as we have molecule races and learn all about mixing colors. Have a blast with bubbles as we refract light and look for rainbows in our bubbles!

APRIL – The Cycle of Life

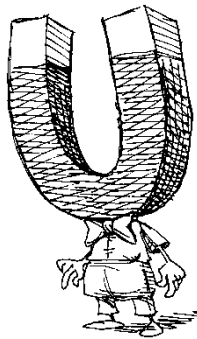

Learn about amazing Butterflies. Interact with models of several different animal lifecycles and create your own Lifecycle of a Butterfly creation to keep!

MAY - Birds of a Feather

Learn about our feathered friends as we discover the exciting world of flight! Learn about animal adaptation, observe a real Ostrich Egg and Bird's Nest and take home your very own REAL bird's feather.

Ask about our amazing hands-on **Holiday Science Programs**

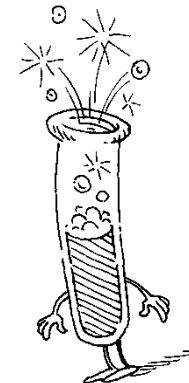

Great for days off from school and Winter/Spring breaks! Age appropriate for preschool through 5th grade students,
